

RAF CIVIL PTY LTD.

CAPABILITY STATEMENT

COMPANY PROFILE

RAF Civil is an Australian owned and operated family business. Run by Adrian Forde and Rhiannon Leake, a couple who sought to set their mark in the construction industry. Quality and professionalism are what drives the business with the understanding that great equipment and a passionate workforce deliver the best product to our clients.

For every job we undertake we ensure the experienced knowhow and all the correct tools are available to ensure the job is done correctly the first time. This repeat outcome has seen retaining previous clients and lead to rapid growth of our business.

In the next few years RAF Civil strives to be a standout subcontractor that is considered a necessity each project. We have the people, the equipment the systems to get onto any job and make a mark in the industry.

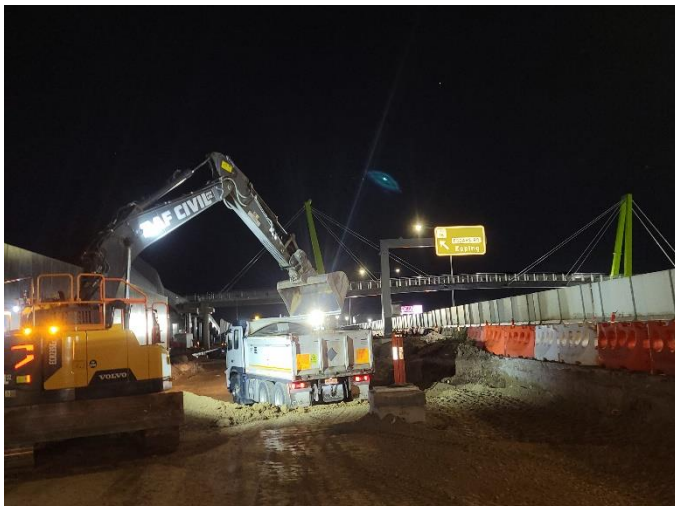

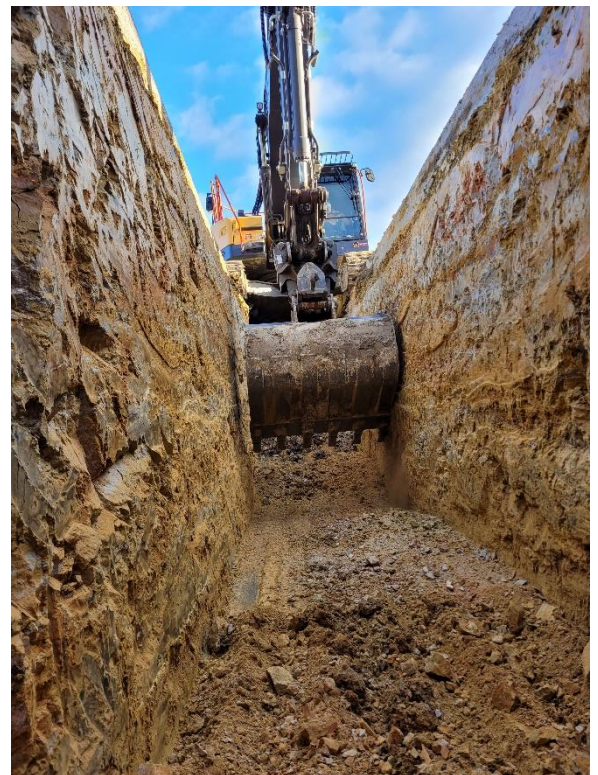

EARTHWORKS

Bulk Earthworks / Detailed Earthworks / Structural Fill

RAF has a range of earthmoving equipment with the latest technology to ensure any earthworks works are done with ease. We have proven ourself in the areas of:

- Bulk Earthworks
- Detailed Earthworks
- Pavement Installation
- Structural Fill / RSS installation

DRAINAGE

Stormwater Drainage / Subsoil Drainage/ Cross Drainage

Drainage is the key to every successful civil project in Victoria. RAF has experience in conducting all sorts of drainage solutions to a range of different projects. Drainage done wrong can be an expensive process to rectify, that is why you have to be sure it is done right that first time.

We can offer services in:

- Stormwater Drainage
- Existing pit work
- Subsoil drainage
- Cross drainage
- Swale drain construction
- Rock Beaching installation

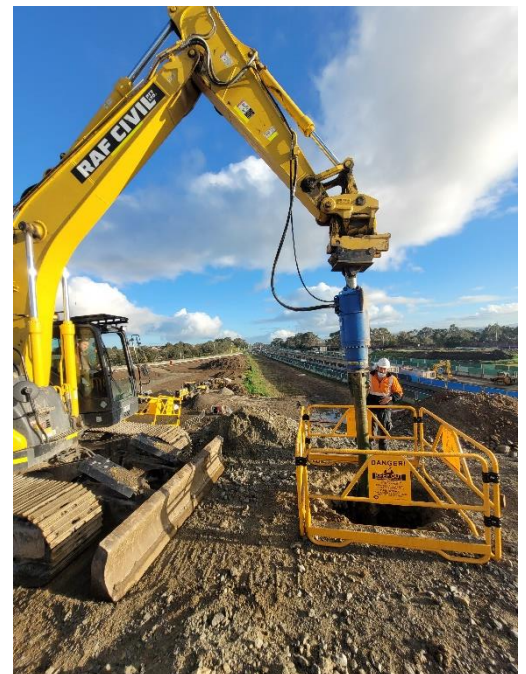

PILING

Bored Piers / Core Drilling / Retaining & Noise Walls

RAF Civil has extensive experience in drilling with excavators. We have a large range of augers and core barrels at any size to suit all types of machines. Recently we have seen ourselves becoming very competitive in the area of bored piers and retaining / sound wall installation with the successful delivery of many off structure barrier piles and retaining walls.

If you have any piling works in the foreseeable future, give us the opportunity to provide a competitive quote.

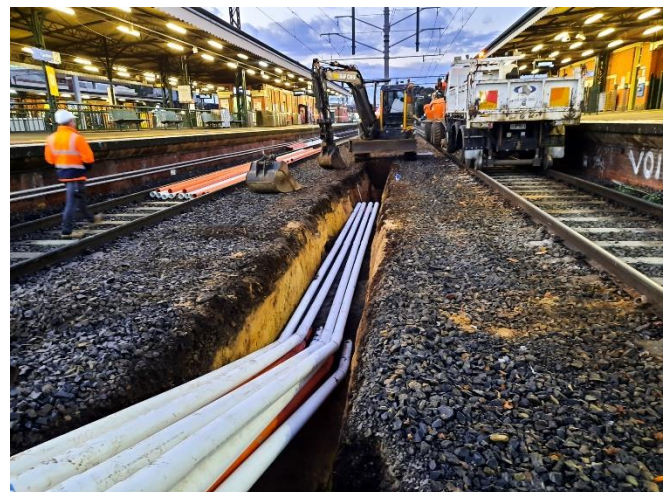

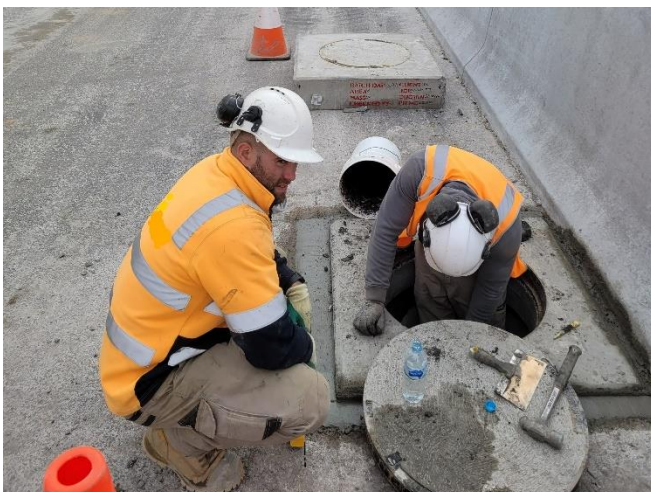

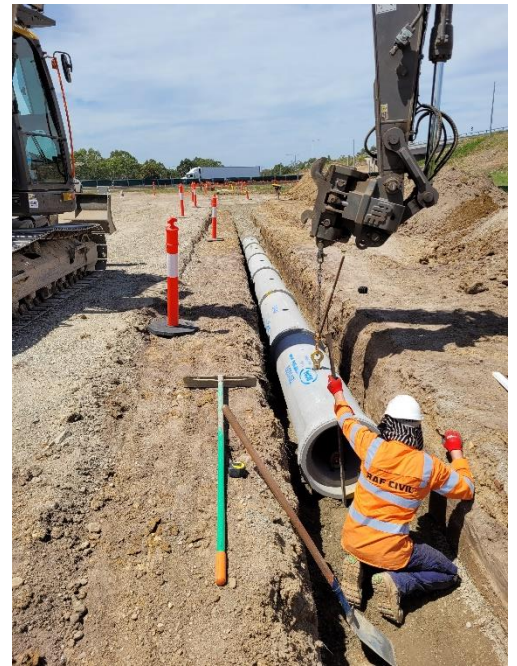

SPECIALISED LABOUR HIRE

Pipelayers / Confined Space / VEDN / Tool Supply

Our strength is not in the numbers of labourers we have but in the skill, experience and drive our people have. At RAF CIVIL we have a several specialised labourers on board to cater to our clients needs, these include

- Pipelayers
- Plant operators
- Formworkers
- Confined space workers
- Dogman/Riggers
- Rail card holders
- First aiders (level 2)

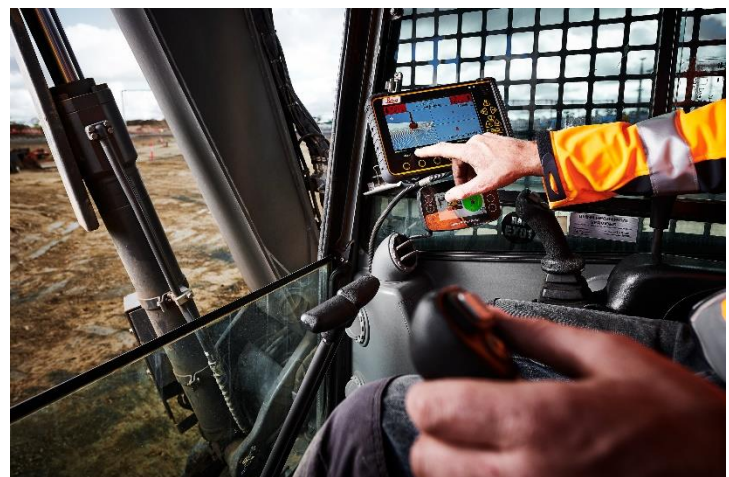

SPECIALISED PLANT HIRE

GPS / Height & Slew Restrictors / Load Management Systems

RAF has invested in top quality equipment and the latest technology to ensure our equipment is the safest, most efficient and most capable on the market. All is plant is decked out to mine spec and is made compliant to rail.

Some of these technologies include:

- Tilt hitches
- Breakers
- GPS systems
- UTS systems
- Height and slew restrictors
- Load management system
- Latest attachments

CLIENTS

CORE VALUES

RAF CIVIL's top 5 core values are; Safety, Integrity, Respect, Accountability and Leadership

SAFETY

The safety of everyone we may impact is our top priority. Our goal is zero accidents and incidents through provision of training, effective leadership and management.

INTEGRITY

Our business promises to conduct itself with the highest level of honesty, ethics and moral correctness.

RESPECT

Everyone deserves respect and we respect not only through our interactions with people but to the environment, sustainability and fairness and ethics in the broadest sense.

ACCOUNTABILITY

Each individual is fully accountable for his or her actions and decisions.

LEADERSHIP

We believe that leadership starts at the top...but it's the middle and below that takes it across the goal line.
